

60% of social media users spend at least 30 minutes a day on these sites at work

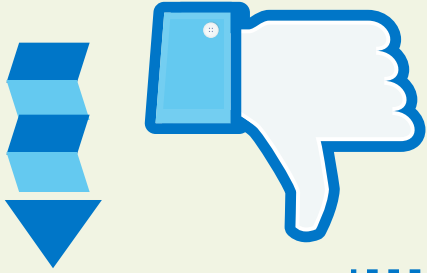

73% employees share too much information on social networks

73%

An average company with 55 employees spend \$65k per year on non work related social media activity

\$65,000

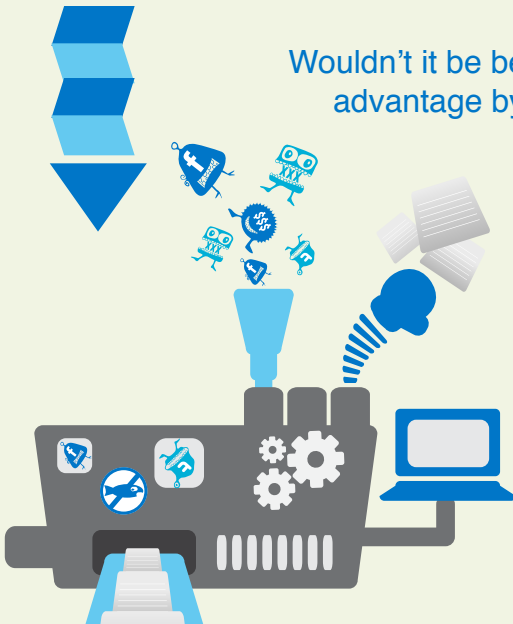

Companies are rightly concerned with **LOSING PROFIT & PRODUCTIVITY**
Employee violations are the biggest concern

MAKE IT STOP

It's time to take control and start managing how the internet and social networks are used in your organisation.

Wouldn't it be better to embrace social media and use it to your company's advantage by identifying a social media policy and suitable web filtering solution rather than running scared?

FEAR NOT

WebTitan is a powerful web filtering, and web security solution that allows you to manage access to or filter websites visited by employees.
